

How parents use the homework feature on Connect

1. Access the homework section

Homework can be accessed from the Connect app home screen by tapping on the homework section.

2. Viewing Homework

Here parents can view homework set for their children.

Parents can also submit answers and view more days if available to do so.

3. Adding work to send to teacher

Parents can add attachments such as documents & pictures to send for correcting.

There is two options - to **save but don't send** or to **send** for review back to the teacher.

4. Save but don't send the homework

If you pick this option in step 3, files and comments will be saved but won't yet be sent to the teacher.

In the homework section you will see **homework not sent**. Here you can review what you are submitting and send it when you are ready

5. Sending homework to teacher

When you wish to send work to the teacher you can press the **Send** option.

Please note: this step cannot be undone so be sure to have all files & comments ready before sending.

6. View your answer to the teacher

After homework has been sent to the teacher you can look back and review what you sent.

This is done by returning to the homework section and clicking **view your answer**.

7. Feedback from the teacher

Returning to the homework section at a later time, you may notice **new homework feedback**.

Clicking on a date will open the response from the teacher on homework sent to them.

8. Viewing the feedback from the teacher

In the feedback section you can see any comments or awards sent from the teacher.

You will in some cases also have the option to resubmit work.
